4 Courses

Understanding Global Supply Chains

Procurement Strategies

Demand Forecasting and Inventory Management

Supply Chain Sustainability

May 6, 2026

Dinesh N

has successfully completed the online Professional Certificate

Airbus Supply Chain Specialist

Our certificate is the culmination of a transformative journey. By completing this professional certificate, the learner has gained practical and strategic skills in supply chain management, logistics, procurement, inventory control, inventory management, risk management, and demand forecasting. They have applied advanced methodologies, techniques and frameworks, while mastering essential tools. Learners explored new digital innovations and their impact on supply chains including AI, IoT, and blockchain, and demonstrated an understanding of sustainable supply chain practices. This certificate reflects the attainment of real-world, job-ready skills through immersive, AI-powered learning developed by global industry leader Airbus and learning experts at Airbus Beyond.

Romain Sohier
Airbus Beyond
Procurement and
Supply Chain Expert

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
